

# XLAIR

*Intense fragrancing designed for generous spaces*

XLAIR is an intelligent solution for large areas in: hotels, offices, reception areas, hospitals, nursing homes, locker rooms, large stadiums, and care facilities, infact, any large area that needs a fragrance solution.

An attractive versatile and affordable option for fragrancing large and challenging spaces up to 3500sqft.

Hi-Tech Smart Fan enables dry essential oils to travel, for a complete and uplifting experience.

- **Dry vapour** - remains airborne creating maximum impact
- **Essential oils** - natural solution free from propellants and solvents
- **Customisable Fragrance** - Endless fragrancing options, combating nose fatigue.
- **Seven strength settings** - catering for each and every individual need.

Recyclable cartridges, no voc's, making them eco consious and kinder to the environment
