

pressatap

Tap into additional water savings!

fit **press**atap and save money!

The Pressatap converts your existing tap quickly and easily into a highly efficient delay tap - proven to save you up to 7 litres every 30 seconds. Compare that with your current usage and see what you could save by making this simple conversion.

Achieve up to an 85% water saving!

Step 1
Your existing tap

Step 2
Remove existing stem

Step 3
Insert Pressatap

Why choose the **press**atap...

- No expensive plumbing!
- Stop water wastage / vandalism!
- Convert your existing taps to push taps
- Eradicate taps left running
- Improve broken or leaking taps
- No need to replace existing taps
- Quick and easy to install
- Inexpensive solution
- Quick pay back timescales
- Built to last

The only push tap to have full flow and running time control!
