

# Waste Management

Waste to energy

**The AHS Waste Management combines safety, convenience and environmental responsibility.**

**Clinical waste** is often referred to as healthcare or medical waste. AHS dispose of all types of healthcare waste including yellow bags, orange bags and sharps boxes. Whatever the amount of nappies, incontinence pads, syringes, swabs and dressings, AHS provides correct storage and disposal containers helping you to manage effectively and reduce the risk of contamination.

- Professional service by AHS trained, uniformed Technicians
- UN 3291 approved containers, 2.5 to 770 litres, external or internal use
- Highly visible units for EWC 18 01 03, 18 01 09, 18 01 04, 20 01 99 waste streams
- Large lockable designs with wheels and drop front panel for easy manual handling
- Licensed waste transfer, Independent caring company
- Helping you to conform to legislative requirements
- Meeting the needs of staff, residents and visitors

## Sustainability – ‘Say No to Landfill’

AHS chooses to dispose of clinical waste by ‘waste to energy’ process, helping you with your global footprint.
