

Urinal Bowl Cleaner & Odour Neutraliser

Properties

To be used in conjunction with your **BioPod**. **Urinal Bowl Cleaner** has been specially designed to work with the properties and enzymes within the BioPod, unlike bleaches or other cleaning products that kill the necessary enzymes within a BioPod destroying the function of the product.

The **Biological Washroom Cleaner and Odour Neutraliser** contain highly active micro-organisms to eliminate odours and staining from urine whilst also degrading uric acid and lime-scale in urinals and on washroom surfaces.

The micro-organisms produce an enzyme effect to break down grime, scale and scum within the washroom area.

The highly scented cleaner leaves a long-lasting fragrance, ensuring maximum impact upon those entering the washroom.

- Can be used on surrounding tile and floor area for added and active protection.

Directions for use

Dilution Ratio 1 Sachet per 750ml Trigger spray bottle.

Add 1 liquid sachet to bottle

Fill bottle with water to 750ml level

Replace trigger and shake gently to dissolve sachet

Spray directly to all washable surfaces and wipe with cloth
